EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. York, Olen on September 01, 2004.

The application has been amended as follows:

Claim 1, line 1, "mounted" has been replaced with --for mounting--; line 14, 17, and 19, "sized" has been replaced with --adapted--

Claim 12, line 2, "including the PANTONE R series of yellow" has been deleted

With respect to the specification, on page 5, line 10, "rack" has been replaced with --support-- and on page 8, line 12, a reference numeral --**47**-- has been inserted after the word "handle"

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: With respect to Figure 1, a reference numeral --20-- with a lead line and an arrowhead has been added to point to a storage volume of the organizer. With respect to Figure 3b, a reference numeral 47 with a lead line has been added to point to a handle of the drawer. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowance

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-12 are allowed because there is no prior art of record that teaches or suggests a tool organizer possessing the entire combination of features specified by the claims. In particular, while features may be individually known, there is no teaching or suggestion of a support plate (46) projected from a front of the tool organizer and coextensive with the base (22) and has three sizes of small (40b), intermediate (40a), and large (42) apertures to accommodate various of hand tools and a container, see claim 1, lines 11-19. Further, the claims are allowable because the mere fact references may be can be combined or modified, they do not render the resultant combination obvious unless the prior art also suggests the desirability of the combination. Furthermore, since the lack of suggestion or motivation to make the proposed modification to combine thereof, the modification would render the prior art invention being modified unsatisfactory for its intended purpose.

Any comments considered necessarily by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
